LinkedIn: Saira Nasir

I am a Frontend and Backend Developer with expertise in HTML, CSS, JavaScript, TypeScript, Next.js, React, Tailwind CSS, and Sanity, skilled in API creation and integration. I have successfully developed both UI/UX-focused websites and a fully functional marketplace. Currently, I'm a student seeking to work with a dynamic team and innovative company, while pursuing my goal of eventually owning my own business.

Professional Experience

The Citizens Foundation School   05/18 - 01/24
Math Teacher

- Passionate and versatile Web Developer with expertise in building responsive and user-friendly websites using modern technologies such as Next.js, JavaScript, and TailwindCSS. Additionally, I am an experienced Math Teacher with a strong background in creating engaging lesson plans and delivering complex mathematical concepts in an understandable way.

Alpha Islamic School   08/19
Vice Principle

- Lead an education & finance management as a School principle.
- My expertise includes
- Teacher training and development
- Education technology integration
- Manage school accounts.
- Review budgets, plans, supervise staff, and ensure the school environment is safe.

The Citizens Foundation   01/24
Senior Teacher

- Led a team of teachers, ensuring high-quality lesson delivery and student engagement.
- Took ownership of student academic progress, implementing strategies for improvement.
- Developed and aligned curriculum with educational standards, fostering excellence.
- Mentored junior staff, contributed to school initiatives, and maintained strong parent-teacher relationships.

Governor Sindh Initiative for GenAI , Web3 And Metavers   08/24
Student Leader

- As a Student Leader at Governor House, I have actively contributed to the academic growth and development of my peers, particularly in the areas of web development and API integration. I assist fellow students by providing guidance on Next.js, TypeScript, React, and API integration, helping them troubleshoot and resolve errors. My role involves actively engaging in problem-solving, offering technical support, and ensuring that students understand key concepts related to modern web development frameworks and tools. This experience has allowed me to develop strong leadership, communication, and technical skills while supporting my peers in their learning journey.

Education

TCF secondary school KFC campus   03/04 - 03/15
Matriculation - Grade A

Govt college for women New Karachi   05/15 - 04/17
Intermediate In Commerce - Grade C

Karachi university   04/18 - 03/22
B.Com - 2nd division

Governor Sindh Initiative for GenAI , Web3 And Metavers   08/23 - 01/25
Frontend And Backend Developer

- Completed a comprehensive course in TypeScript, JavaScript, React, Next.js, TailwindCSS, and API integration at Governor House. Gained hands-on experience in building dynamic and responsive web applications, implementing modern front-end frameworks and best practices for seamless integration with backend APIs.

Projects

Marketplace Place E-commerce Wepsite

- I have successfully designed and developed my own e-commerce marketplace, focusing on both retail and wholesale shopping experiences. The platform provides a seamless and user-friendly interface, ensuring an optimal shopping experience for customers and businesses.
- Key Features:
- Dynamic Product Management
- Wholesale & Retail Pricing
- Responsive UI/UX
- Fast & Optimized Performance
- Advanced Search & Filtering
- Tech Stack:
- Frontend: Next.js 14, TailwindCSS
- Backend & CMS: Sanity CMS
- Database: Sanity CMS
- Testing: Cypress
- Deployment: Vercel
- Project Links:
- GitHub Repository:
- https://github.com/coreED-Github/Marketplace_HomeStore-Ecommerce-Website.git
- Live Demo: https://marketplace-home-store-ecommerce-website.vercel.app

UI/UX Website

- This UI/UX-based project was built using Next.js and TailwindCSS. While I recognize there's still room for improvement, I'm committed to enhancing my skills and delivering even better results in the future
- Vercle link
- https://project-hackathon-ui-ux.vercel.app
- GitHub repo
- https://github.com/coreED-Github/Project_Hackathon_UI-UX.git

Website

- Here's a quick highlight of the website:
- ✅ Includes multiple pages, each designed to be user-friendly and efficient.
- ✅ One of the pages provides insert example functionality here, e.g., a contact form, interactive data visualization, or blog posts.
- explore the project:
- Live Version: https://lnkd.in/dUs5fQM7
- Code Repository:
- https://lnkd.in/dxwQ5JVx

Key Skills

- Web Development: Proficient in HTML, CSS, TailwindCSS, JavaScript, TypeScript, React, and Next.js for developing dynamic and responsive applications.
- API Integration: Skilled in integrating RESTful APIs for real-time data handling and seamless backend connectivity.
- UI/UX Design: Experienced in crafting intuitive and visually appealing user interfaces using modern web technologies.
- Project & Time Management: Highly organized with excellent time management skills, ensuring efficiency and timely completion of tasks.
- Leadership & Ownership: Strong ownership mindset, taking initiative and responsibility to drive projects and teams toward success.
- Problem-Solving & Critical Thinking: Ability to analyze situations, identify issues, and provide effective solutions through observation and logical reasoning.
- Internal Locus of Control: Self-motivated, proactive, and confident in shaping outcomes through personal effort and decision-making.
- Communication & Team Collaboration: Excellent communication skills, fostering teamwork, mentoring individuals, and maintaining productive professional relationships.
- Educational Leadership: Experienced as a school principal, managing faculty, student development, and institutional growth through strategic planning.

Interests

- Community work
- Traveling
- Programming and coding
- Teaching
